WORK EXPERIENCE

CrowdBazaar Private Limited

Full Stack Developer.

Aug. 2024 – Present

Remote, UK

- Developed user authentication using Firebase and reCAPTCHA for secure phone number verification.
- Integrated Stripe as a seamless payment gateway for vendors, enabling transactions via credit cards and other providers.
- Facilitated efficient vendor payments, contributing to the platform's usability and adoption.
- Implemented Role-Based Access Control (RBAC) to allow vendors to create sub-accounts with custom permissions for managing menus, orders, and sales.
- Contributed to a production-ready website, delivering robust features to meet business requirements.
- Worked on customer POV, vendor POV and delivery POV for orders for managing orders.
- Implemented Meta Api's and Stripe Api's with their webhooks on our platform.

Hanamizuki Training PVT LTD

Japanese Teacher

Oct. 2023 – Apr. 2024

On-site, Kathmandu

- Worked as a Japanese teacher for N5/N4 level.

PROJECTS

- [SchoolGrid](#): Platform where faculty can manage teachers' and students' routines and notices. (HACKATHON PROJECT - 2nd Runner Up, at [TCMIT](#) hackathon volume 1, Apr 2025)
- [CodeSync](#): Built real-time collaborative coding editor with socket-based communication for JS/TS users.
- [Sajilo Pdf](#): Image to pdf, template maker and existing pdf's template replacement features.
